

EPIC

Project Services Program

The Aiken Engineering EPIC™ Project Services Program is driven by a team of Professional Engineers, designers, and industry experts.

EPIC

ENGINEER to applicable codes and approved best practices
PROCURER system components and equipment
INSTALL system components and equipment
CUSTOM designs to meet the specific needs of the application

300 TON HOT STRETCH STRAIGHTENER FOUNDATION

PROGRAM OUTCOMES

- Aiken Engineering engineers processes, systems and equipment to the client's stated objective using applicable codes and industry approved best practices.
- Aiken Engineering procures equipment and components for the project
- Aiken Engineering coordinates and oversees the installation, as directed by the client.
- Customization can be critical to project success. The EPIC™ Program is centered around the individual needs of each client and each project.
- Aiken Engineering is sensitive to the proprietary nature of our clients' work. We hold client information and solutions in the strictest confidence.

“A central principle of the EPIC™ program is that Aiken Engineering takes the time to understand your needs. We thrive on our ability to work in harmony with your team leaders to develop sound solutions that are customized for your facility.”

— Bill Aiken
